MULTI-STATE SEX AND VIOLENT OFFENDERS

Though National in scope, data provided by NBD is compiled from multiple public record data sources. NBD makes no claims to the completeness of its database or that data for all states or jurisdictions is included in its current product offerings. NBD acknowledges that the service provided here does not always substitute for an in-person courthouse search of criminal records and NBD recommends that its database products be added to end-users traditional screening methods. NBD takes reasonable measures to update these records as available, but as in all public records, we rely on the completeness and accuracy of each state's records.
